Base Filtering Engine

What is Base Filtering Engine? Base Filtering Engine Service (BFE) is a service that controls the operation of the Windows Filtering Platform. Windows Filtering Platform (WFP) is a network traffic processing platform that allows software to "hook" into Windows networking stack and perform such functions as firewall, traffic shaping ...

Base Filtering Engine (BFE) service is missing: why did it ...

Use custom headers added by your email provider. Your email provider may run a spam filtering program on their mail server such as SpamAssassin, MailScanner, CRM114, SpamProbe, QSF or Bogofilter that analyzes each message and adds custom headers with information about its content.

Content-based filtering: These filtering methods are based on the description of an item and a profile of the user's preferred choices. In a content-based recommendation system, keywords are used to describe the items; besides, a user profile is built to state the type of item this user likes.

How do Recommendation Engines work? And What are the Benefits?

Frequently asked questions including how and where to purchase AMSOIL products and switching from petroleum motor oil to synthetic. Synthetic oil and filter recommendations as well as motorcyle (including Harley Davidson) lubricant recommendations.

AMSOIL Frequently Asked Questions
Sportsmobile Base Ford E350 Diesel. How it came: The Sportsmobile is built on a 2005 Ford E350 Powerstroke 6.0L V8 Diesel van chassis. After a number of visits to a couple Ford dealers to address issues we have had with the van itself (engine noises, brakes, etc) under warranty, I am certain that we will NEVER again purchase a Ford vehicle.
