Bayley Scales Manual
The Bayley Scales of Infant and Toddler Development (Bayley-III is the current version) is a standard series of measurements originally developed by psychologist Nancy Bayley used primarily to assess the development of infants and toddlers, ages 1–42 months. This measure consists of a series of developmental play tasks and takes between 45 ...

Bayley Scales of Infant Development - Wikipedia
The Bayley Scales has become a gold standard for assessment of early child development (Table 79-3). The popularity of this measure is attributed to sound psychometric properties, child-friendly materials, and usefulness in providing benchmark information at various stages of intervention.

Bayley Scales of Infant Development - an overview ...
The original work of Bayley in 1969 led to an understanding of how motor skills develop in the child. The Bayley-III Scales reflect this expanded view of motor development.
