Mechanics Readiness Program (MRP) Are you ready for Statics (UNL-MECH 223 and 223H)? The Mechanics Readiness Program (MRP) has been developed to help you RAPIDLY review the subjects (primarily mathematics) you will need to know to succeed in Statics.

Engineering Mechanics

The objective of the 25th conference is to provide a forum for researchers to discuss the state-of-the-art topics in all branches of mechanics, particularly in connection with problems under investigation in the Czech Republic.

Dynamics (mechanics) - Wikipedia

Mechanical engineering is the discipline that applies engineering, physics, engineering mathematics, and materials science principles to design, analyze, manufacture, and maintain mechanical systems.

Mechanical engineering - Wikipedia

The development of computer methods for the solution of scientific and engineering problems governed by the laws of mechanics was one of the great scientific and engineering achievements of the second half of the 20th century, with a profound impact on science and technology.
