

### **Engineering Procurement Construction Management Agreement**

Engineering, Procurement and Construction (EPC) is a particular form of contracting arrangement used in some industries where the EPC contractor is made responsible for all the activities from design, procurement, construction, commissioning and handover of the project to the end-user or owner.

### **Engineering, procurement, and construction - Wikipedia**

Engineering Procurement and Construction Management contracts (EPCM contracts), like Engineering Procurement and Construction contracts (EPC contracts) are similar to design and build contracts, in that there is a single point of responsibility for the design and construction of the project, but generally, the client has less say over the design of the project than on a design and build ...

### **Engineering Procurement and Construction Management ...**

Engineering, procurement, and construction (EPC) contracts, sometimes called turnkey contracts are similar to design and build contracts, in that there is a single contract for the design and construction of the project, but generally with an EPC contract, the client has less say over the design of the project and the contractor takes more risk.

### **Engineering procurement and construction contract ...**

EPCM stands for Engineering, Procurement, Construction Management. This type of contract is different to an EPC Contract in that the Contractor is not directly involved in the construction but is responsible for administering the Construction Contracts.
