

First Aid For The Psychiatry

First aid is the first and immediate assistance given to any person suffering from a serious illness or injury, with care provided to preserve life, prevent the condition from worsening, or to promote recovery.

First aid - Wikipedia

Emergency psychiatry is the clinical application of psychiatry in emergency settings. Conditions requiring psychiatric interventions may include attempted suicide, substance abuse, depression, psychosis, violence or other rapid changes in behavior.

Emergency psychiatry - Wikipedia

The ABC's of first aid are the primary things that need to be checked when you approach the victim, Airway, Breathing, and Circulation. Prior to CPR, ensure that the airway is clear, check to see if the patient is breathing, and check for circulation (pulse or observation of color and temperature of hands/fingers).

What are the ABCs of first aid? | First Aid, Safety ...

If you or a friend or family member gets stung by a scorpion, don't panic! Most of the time, a scorpion sting is like a bee sting -- pain, burning, mild swelling, and maybe numbness locally, that will resolve fairly quickly.

What should I do if I get stung by a scorpion? | First Aid ...
