Teachers report having to sift through junk science and misinformation as they work to teach their students about climate change. A Japanese startup that launched a rocket into space last month ...

Science News

The phrase tragedy of the commons, first described by biologist Garrett Hardin in 1968, describes how shared environmental resources are overused and eventually depleted. He compared shared resources to a common grazing pasture; in this scenario, everyone with rights to the pasture grazes as many animals as possible, acting in self-interest for ...

Ten Real-Life Examples of the Tragedy of the Commons

It is very common for a person with a life path number 9 to fall to their negative side. They can become egoistic and get offended for no particular reason.

Numerology Life Path Number 9 - Spiritual Science

Misleading stereotypes of scientists. MISCONCEPTION: Science is a solitary pursuit. CORRECTION: When scientists are portrayed in movies and television shows, they are often ensconced in silent laboratories, alone with their bubbling test-tubes.

Tips and strategies for teaching the nature and process of ...

In the study of early life on Earth, one name towers above the rest: LUCA. LUCA is not the name of a famous scientist in the field; it is shorthand for Last Universal Common Ancestor, a single cell that lived perhaps 3 or 4 billion years ago, and from which all life has since evolved.

ActionBioscience - promoting bioscience literacy

Water is a key ingredient for life as we know it. And liquid water, it turns out, is fairly common in our local solar system. For example, evidence is mounting that liquid water may flow ...
