Dual motion detection technology. The system uses a combination of 2 motion detection technologies to deliver the most accurate alerts. Video Motion Detection (VMD) detects changes in the camera image, while Passive InfraRed (PIR) uses a sensor on the camera to pick up heat signatures from persons and animals.

An interesting name for a security company, Night Owl security are manufacturers of security cameras and other security equipment. Relatively new in the security technology industry, the company started up in 2009 from Boynton Beach, Florida.

Don't Buy a Night Owl Security System without Seeing these ...

Milestone, the leader in commercial NVR software came out with a new release a few weeks ago and they have made some good improvements. Milestone is one of my favorite NVR solutions and has some of the widest coverage of network cameras out there as well as very good smartphone apps and remote browser access.
