10 litres is containing 20% alcohol...means 2 litres of alcohol and 8 litres of water. Now the alcohol percentage is to be reduced by 75%..that means 75% of 20%...that means in the new solution, the content of alcohol should be 5%.

How much water should be added to 10 liters of a 20% ...

The P versus NP problem is a major unsolved problem in computer science. It asks whether every problem whose solution can be quickly verified (technically, verified in polynomial time) can also be solved quickly (again, in polynomial time).
