Yes, that's the engine management light, basically, the ECU has recorded a fault- you will need to have the fault code read, this doesn't mean that you have to take the car to a main dealer/agent, a local auto electrician with a fault code reader should be able to retrieve the fault code for you.

VW Polo 1.2 (53 reg) - warning light | AVForums

Unfortunately, this is a defective light engine. I have changed many of these simply because they were covered in dust. If you were to consider the fan on a desktop computer and the amount of dust collected in the vents, this is what the light in your TV is passing through on its way to displaying the picture.

My tv is very dark and dim. barely see picture. i cleaned ...
