In a science-fiction universe with Discontinuous ("teleport-like" or "jump") faster-than-light drives in their starships, traditionally the astrogator's job after each instantaneous jump was to establish the location the starship materializes at, with micrometer precision.

Astrogation Deck - Atomic Rockets

Baffle: - The part of a loudspeaker enclosure on to which the drive units are fastened. Alternatively, a sound absorbent barrier used in recording studios to separate musicians who are recording in the same room (sometimes referred to as a "gobo" in this sense).

music technology dictionary, MIDI, audio and electronics ...

The first of Gordon Woodcock's methods of interstellar travel is "go slow". Distance between stars is

huge, traveling said distance slower-than-light will take a huge amount of time, human beings have a very limited lifespan.
